FREE COLLEGE FOR CHILDREN OF SOLDIERS

IMPERIAL UKASE PROVIDES FOR AGRICULTURAL INSTRUCTION IN RUSSIA WITHOUT COST

(By Associated Press.) PETROGRAD, Aug. 17.—A widespread system of free agricultural schools and colonies for the children of soldiers killed or severely wounded in battle has been started by imperial ukase.

The immediate management and control of the schools is to be in the hands of the local zemstvos, which will provide also a part of the funds for their support. Other sources of income are charges upon monasteries, church charities and agricultural societies, and the state will give grants of money as needed.

The aim of the new institutions is to train the orphan children in the same station of life as their parents. Children of both sexes up to the age of 17 will be received. The schools will be under the general supervision of the minister of agriculture.

ANOTHER "GHOST CITY"?

An interesting party of tourists came into Carson City this morning, composed of Mrs. R. J. Burdette, widow of the late Bob Burdette of the Burlington Hawkeye; James W. Foley of the Saturday Evening Post, from North Dakota, and Mrs. Foley, all magazine writers of reputation, says the Carson Appeal. They visited the various points of interest in and about Carson, calling on Governor Boyle and the staff officers and then went over to Reno, paying their respects to Bowers' mansion on the way.

AIRDOME

The regular Wednesday and Saturday night dance. Old tickets not good on the floor but can be exchanged at box office.—AdvA17-21.

Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by **Marlin Eye Remedy**. No Stinging, just Eye Comfort. At Your Druggist's 50c per Bottle. **Marlin Eye Remedy** 25c. For Sale at **Marlin Eye Remedy** Co., Chicago.

NEVADA CINNABAR CO. PREPARING TO SHIP

PRODUCING QUICKSILVER AT CAPACITY; METAL IS SELLING AROUND \$90 PER FLASK

Between eight and ten flasks of quicksilver are being produced daily at the property of the Nevada Cinnabar company, according to the management, and a shipment will be sent out in the near future. The metal is now quoted between \$92 and \$95 per flask of 75 pounds in first hands and between \$95 and \$100 per pound in second hands. The Nevada Cinnabar company's property is located at Ione, Nevada, with the offices of the company in Salt Lake. The mine was never in a better condition, says the Tribune.

The best opinion prevalent in the quicksilver trade is to the effect that the metal is bound to sell higher in the near future, due to the embargo that has been placed on shipments from Italy by that government. Practically all of the European powers have prevented the shipment of the metal. Prior to the declaration of war by the European powers the metal was selling in New York and San Francisco around \$35 per flask of 75 pounds.

The Scott furnace is now producing at capacity, the walls having become thoroughly charged so that the metal flows from the condensing chambers with regularity, increasing and decreasing according to whether the ore being treated is of high-grade or of low-grade nature. The mine is responding to development work and a better grade of ore is being broken daily.

Quicksilver is used mainly in the manufacture of fulminate for explosive caps and various other forms of explosives. Recently the powder manufacturers of the United States have been using larger quantities of the metal in manufacturing powder, their chemists having discovered, it is said, the formula used by the Japanese and held secret for years by that government. The metal is also used in the form of drugs, electrical appliances and scientific apparatus and in the recovery of precious metals, especially gold and silver, by amalgamation. The production of Austria, one of the main producing countries, has been seriously curtailed by the war, despite the needs of that country and Germany.

LABOR DAY TO BE CELEBRATED HERE

PROGRAM FOR THE DAY PARTLY COMPLETED AT A MEETING LAST EVENING

A meeting of business men was held last evening in the card room of the Mizpah hotel for the purpose of pulling off a program for the celebration of Labor day. The program was not completed, but it was decided to hold a boxing tournament under the auspices of the Tonopah Business Men's Athletic club. The main event will be between Frankie Malone of Oakland and Eddie Miller, who has just returned from Australia.

There will also be a ten-round contest between Herb White of Stockton and Kid Reynolds. There will be a band concert in the afternoon and dancing in the evening in both the Miners' Exchange hall and the Airdome. A special train will be run from Goldfield.

NO INDICATIONS OF GENERAL DISARMING

MILITARY SERVICE WILL BE IN VOGUE IN ENGLAND WHEN WAR IS OVER

(By Associated Press.) LONDON, Aug. 17.—The Dean of Durham does not believe that the war will result in disarmament and universal peace "when the war drums throb no longer and the battle flags are furled." In an address at West Hartlepool he predicted that in England the certain consequence of the war would be "the universal obligation to military service" on the Swiss model.

"Never again," he said, "can we run the risk of having the whole fortunes of our land and empire left to voluntary effort, however widely distributed and magnificently rendered."

ADVERTISED LETTERS

List of letters remaining in the Tonopah, Nevada, postoffice for the week ending Aug. 14, 1915. In calling for these letters please state that they are advertised. A fee of 1 cent will be charged for each of the following:

Avery, Robert A.; Bowen, Chas. H. (2); Hynes, C. E.; McCullough, Robert; Panjan, Steve.
J. W. STEWART, P. M.

FAVORABLE CHANGE IN TONOPAH BONANZA MINE

OWING TO IMPROVEMENT THE DATE OF DELINQUENT SALE HAS BEEN POSTPONED

The following statement by Herman Zadic is self-explanatory:

At a meeting of the board of directors, held this day, it was deemed advisable to postpone the date of the delinquent sale for fifteen days. The reason the board has taken this action is that we want every stockholder to know of the favorable change that has taken place in the workings of the Tonopah Bonanza, in which company the Umatilla holds approximately a one-third interest. After sinking the shaft of the Tonopah Bonanza 825 there was encountered what is called the oxidized Midway andesite, proving conclusively that the ore zone extends into the Bonanza ground. Further sinking will be necessary to get into the West End rhyolite or the trachyte, either of which is the ore-bearing formation. This, in my judgment, is great news for the camp of Tonopah, as it certainly extends the ore zone down as far as the Bonanza and maybe further.

At the Umatilla the diamond drill got into crushed ground and at present the driller is engaged in cementing the holes. It is very likely that when drilling is resumed we will shortly thereafter enter into a new formation. What it will be is hard to tell. Taking everything into consideration, I feel justified in advising all those who have not yet paid the pending assessment to pay it at once so as not to lose their holdings. The prospect in the Bonanza alone ought to make the stock worth more than 2 cents per share, "assessment paid."

MILLIONS OF GOLD CHANGED FOR BILLS

PEOPLE OF FRANCE SHOW INFINITE FAITH IN THEIR GOVERNMENT

(By Associated Press.) PARIS, Aug. 17.—One hundred and eighteen millions of francs in gold was exchanged for bank bills at the Bank of France, its branches and other establishments authorized to receive it in the last few weeks. To provide this influx of gold no more was required than the statement of the minister of finance that French citizens could show their patriotism by helping increase the gold reserve of the Bank of France as well as by fighting in the trenches.

The first week produced 12 millions, the second 40 millions and the third 65 millions. To what sum these exchanges are likely to mount no one risks a guess, the movement is reaching such formidable proportions without official insistence or pressure of any sort. Judging by the comprehensive character of the multitude that crowds the windows at which gold is received, there will be little left in the safe deposit vaults, in the swollen sock or in the child's savings bank when the procession has finally passed. There is an estimated net total of coined or coinable gold of \$3 billion, 500 million francs in France at the present moment.

INSPECTS HIS HOLDINGS

Harry Stimler returned last evening from Stinler, where he and W. H. Colvin are heavily interested, owning the Cottonwood Canyon group. This is a property that has been considerably developed and which makes an excellent showing. At one time it was tributed upon extensively.

SLOWLY IMPROVING

Margaret, the eldest daughter of Mr. and Mrs. George A. Bartlett, is gradually gaining in health. At the present time she is able to go out in a wheel chair and her complete recovery is looked for, although it will be many months before she will be her former active self.—Appeal.

TYPEWRITER

Service Company of Sacramento, Cal., O. E. Chase will be in town about August 17th, equipped to repair ALL machines—Typewriters, Cash Registers, or Adding Machines; carrying Ribbons, Carbon Paper, Paper, etc. If anyone wishes his services please phone this office and you will receive prompt attention.—AdvA17-1

WILL ERECT BOARDING HOUSE

P. V. Meyer has purchased through H. H. Bacon the lot at the rear of the Kendall building. He will erect a restaurant building there.

Hotel Federal

Rates \$1 a day up. K. Cannon, Mgr. Nevada patronage solicited

INEBRIATED FLIES ON WILD RAMPAGE

POLICE RESERVES CALLED OUT—DARK LANTERN BRIGADE IN FULL PURSUIT

Something awful happened yesterday. Some fiend in human shape willfully, perversely and criminally moved the lid from Charley Sokol's fly trap, the one that has been in the public eye all summer and which has been the motif of so many mysterious proceedings.

A few days ago Charley ceased using molasses to attract the musca domestica and substituted stale beer. The result was a general offensive movement from both Clyde and Shannon, with a drive from the river Bug and other streams where the winged creatures were hitherto peacefully occupying their trenches.

With the removal of the lid from the fly trap fully two gallons of flies escaped and they are still at large. What depredations these inebriated insects may commit before they are corralled, no one hazards a guess. At all events Bill Evans and his men are the busiest people in Tonopah today and it is possible that there will be no time to arrest the Bonanza again until tomorrow.

DECIMAL SYSTEM IS URGED IN ENGLAND

PROPOSED THAT FARTHING BE MADE BASIS OF NEW METHOD OF COMPUTATION

(By Associated Press.) LONDON, Aug. 17.—Proposals to establish a decimal system of coinage in Great Britain are again receiving attention in the newspapers. The latest advocates are soldiers returning from France, who have become accustomed to the decimal system in use there, and have quickly recognized its advantages.

The proposal most generally endorsed in England is that the farthing be made the basis of the new system. There is already a coin of this denomination in use in England, its value being one-fourth of a penny, or about half of an American cent. It is proposed to make 100 farthings equal to one florin (the common two-shilling piece of English coinage, and equivalent to 50 cents American). This involves only a trifling change from the present system, whereby 96 farthings make one florin.

Under the proposed system the units of money would be: 100 farthings make 1 florin; 10 florins make 1 pound.

The shilling would thus become an intermediate coin, representing 50 farthings, and the sixpence a similar intermediate coin, representing 25 farthings.

A FALSE ALARM

A report reached Tonopah last evening that an auto had overturned on the Goldfield road and that its occupants were all either killed or seriously injured. Several relief machines set out at once and went half way to the gold camp, but they could find no trace of an accident.

WILL GIVE A DANCE

The Fraternal Brotherhood will give a dance on the evening of the 23rd in the Airdome. Refreshments will be provided.

PERSONAL

W. C. BOVAN is a visitor from Bakerville.

W. J. CHANDLER was a passenger for Reno this morning.

MISS MERTEN returned today from a visit to San Francisco.

JAMES LARKIN, the Irish orator, left for the coast on this morning's train.

MRS. J. A. THOMAS has returned from an extended visit to relatives in Grass Valley, Cal.

JOE JOSEPHS, general manager of the Great Western, was an arrival this morning from San Francisco.

J. C. MARTIN Jr. returned this morning to Santa Clara college to resume his studies.

MRS. FRANK THOMPSON returned this morning from an extended visit to California.

PAUL WHALEY, president of the Miners' union, was a departure for San Francisco this morning.

DEPUTY SHERIFF "BILLY" WALKER was called to Bonnie Clare this afternoon on official business.

JOHN SALSBERY is up from San Francisco. He is pressing development work on his Death valley properties.

H. LEGLER, local observer for the weather bureau, returned this morning from his vacation trip to San Francisco.

W. G. WILSON, traveling freight and passenger agent for the Southern Pacific company, was an arrival from Reno this morning.

MRS. LENORE SOLLANDER HANBY is a visitor from Reno, where she is conducting a studio. Mrs. Hanby resided for several years in this city.

H. H. WEIR and family of Goldfield and their guest, Miss Emily Smith of Raleigh, N. C., were visitors to Tonopah yesterday, coming over by motor.

MESSRS. DUNPHY and Turney, leasers at Volcano, who had been spending several days in Tonopah, returned to camp this morning with a load of supplies.

CHIEF ELECTRICIAN GOMMO of the Round Mountain Mining company and Mrs. Gommo arrived this morning from an auto trip to the coast and will continue on to Round Mountain.

DANNY MURPHY and Pete McLaughlin left this morning for the fair. From thence they will sail by the Panama route for Ireland, to be gone several months. They will be accompanied as far as San Francisco by Tom McLaughlin.

GENERAL MANAGER BRADshaw of the Belmont left yesterday afternoon at 4 o'clock for his vacation trip. He was accompanied by his family. They went to Silver Lake and thence will tour Yosemite and afterwards the coast. They expect to be gone about two weeks.

CANADIAN THISTLE IN STATE

The farmers of the Carson valley are becoming exercised over the appearance of the arch-enemy of alfalfa, the Canadian thistle, which has made a showing in that section. Heretofore the only obnoxious weed pest that the farmers have had to contend with was the common tickle grass and foxtail. A concerted effort will be made to eradicate the thistle for once it gets a start it is extremely hard to get rid of.

NEW RURAL MAIL ROUTE

The postoffice department has called for bids for the carrying of mail from Pioche to Geyser and return. The bids will be received up to the 30th instant, and it is proposed to inaugurate the service September 15th.

Advertise in the Bonanza.

NEW TODAY

AMUSEMENTS

PASTIME THEATER

Tonight the show will be at the Pastime theater at the usual time, 7:15 and 8:45, the Butler being remodeled. Marguerite Clark in a five-part Famous Players production, "The Crucible." With clear, bold strokes the author has constructed a character of much power and fascination and in its portrayal Marguerite Clark does not only meet its varied requirements but often surpasses them in a series of dramatically effective scenes. There are many situations to thrill the spectator throughout the five reels, many tragic incidents that impress one with force of reality and the convincing illusion of actuality, but the greatest strength of the subject is derived from the art and ability of Marguerite Clark in both the lighter incidents and the more serious episodes of the play, who renders a power and charm to the story and its characters. This is Marguerite Clark's second appearance in pictures, the first being in "Wildflower," which was shown here some time ago, and at that time Miss Clark was chosen as one of Tonopah's favorites. Follow the crowd to the Pastime tonight. World Film comedy, "Children of Mike and Meyer Elope."—Adv.

DISTRICT JUDGE MADE PARTY TO COMPLAINT

The case of the Bullion Reduction company vs. Consolidated Nevada Utah corporation was brought up in the district court this week and the plaintiff given permission to file a supplemental complaint making Judge Horsey, presiding judge, by virtue of his office as trustee, a party to the complaint, which disqualifies him from presiding at the trial of the case. The action involves title to the old smelter slag dump at Bristol, located on the Bristol townsite.—Pioche Record.

TEMPERATURE REPORT

Highest temperature yesterday, 81; a year ago, 90.
Lowest temperature yesterday, 61; a year ago, 65.

FRENCH PREPARING FOR WINTER CAMPAIGN

GREAT CARE IS BEING TAKEN TO PROTECT THE MEN DURING COMING SEASON

(By Associated Press.) DUNKIRK, France, Aug. 17.—All along the French front preparations are going steadily forward for the winter campaign. In the trenches the greatest possible degree of care is being taken to protect the men, not only against attacks, but also against the rigors of winter.

Tar is being extensively used wherever the intrusion of water is likely to occur, the effort being to make the trenches as nearly watertight as possible. Drainage of various kinds is being provided, and concrete is being freely used to provide weather proof shelters.

If it is necessary to make use of the same trenches this winter as the troops occupied last winter, they will not be so comfortable as yet another frozen feet, and it will be possible to sleep or rest with some degree of comfort instead of in the mud.

For the protection of the troops in the advanced trenches, the use of barbed wire is being largely extended. The driving of the posts for the wire, which was formerly done with heavy mallets the sound of which was often the signal for a volley from the enemy, is now accomplished noiselessly by machinery.
